SIG AI

PRESENTATION STRUCTURE

ALL TEAMS SHOULD FOLLOW THIS STRUCTURE WHILE PRESENTATION.

01 PROBLEM

What problem are you solving?

Clearly define the problem or need that exists in your target area. Explain its importance and why it needs to be solved.

02 TARGET USERS & EXISTING GAP

Who experiences the problem and why are existing solutions insufficient?

Identify your target users and understand their needs. Analyze the current solutions available and highlight the gaps or limitations.

03 PROPOSED SOLUTION

What exactly is your idea?

Present your solution in detail. Explain how your idea addresses the identified problem and meets the needs of your target users.

04 TECHNOLOGY AND IMPLEMENTATION

How will your solution work?

Describe the technologies, tools, and methods you will use. Explain the working model, implementation plan, and key components.

05 INNOVATION AND IMPACT

What makes your solution different and valuable?

Highlight the uniqueness of your idea and the benefits it brings. Explain the potential impact on users, industry, and society.

06 FUTURE SCOPE

How can the idea be scaled or transformed into a product/service/startup/research project?

Discuss the potential for growth, scalability, commercialization, and long-term development of your idea.
